

OSI DESIGNS

REFINING OPPORTUNITY

*OSI DESIGNS, LLC is an independent development company based in Birmingham, AL.
Primarily in the business of providing quality Interactive Media & Web Application Development!*

OSI Designs strives to provide superior client services to those companies and organizations that do not have internal web development departments and personnel, but still require a professional and customizable internet identity. Our focus is on the client's needs and future growth, not just a cookie-cutter solution. We strive to understand our client's needs and provide them a partner in accomplishing their business or organizational goals.

PHASE 01

Design & Concept

This portion of the delivery process will include a detailed discussion of the design layout and expected functionality along with the signing of the agreement and first installment, if applicable, to begin the development process.

PHASE 02

Data Management and Integration

This area of the development process will be for the purpose of transferring information from the current site to the new site or the creation of the new site altogether. This will be either a fully functional design or mockup depending on the requirements for the site.

PHASE 03

Revisions and QA Sessions

Following Phase 2 of the development process, OSI Designs will handle any concerns or desired changes to the previously presented design from the client. Upon receiving the requests, OSI Designs will make the changes and release the site live to the web.

PHASE 04

Site Launch & Maintenance Plan

Maintenance plans are optional. Video training for maintaining the website will be made available free online, seven business days after the site has been launched. All on-site or online training needed after the website goes live can be requested at an hourly rate of \$47. This must be paid before the training is considered confirmed.
